

2-Post Lifts

The Sterfil-Koni heavy-duty two post lift series is the highest premium lift in the industry. ALI standards (ALI/ALCTV2006) call for 50/50 distribution loads on each arm. Sterfil-Koni exceeds those standards and each is able to handle a distribution load of 2/3 - 1/3. No expense was spared in making this series nearly immune to wear. The SK 2070 model has a capacity of 16,000 lbs. and the SK 2082 has a capacity of 18,000 lbs. In addition to the unique engineering design, the following features characterize these lifts.
